**2. Citations and explanations (Rule 70.7)**

- D1 WO 01/24123 (CHAMELEON NETWORK INC.) 5 April 2001  
D2 US 6202054 (LAWLOR et al.) 13 March 2001  
D3 WO 94/22116 (SANTIGLIA et al.) 29 September 1994  
D4 WO 94/07219 (INTERNATIONAL VERIFACT INC.) 31 March 1994

**Novelty (N)**

D1 discloses a portable electronic authorization system and associated methods. In D1 the portable device (also called the Pocket Vault) contains both financial data and non-financial data (see page 21). See whole document for explicit disclosures of the display (eg. Fig. 2 reference 216), controller (reference 202) and use of either secure or non-secure menu selections (see Fig. 7 reference 714 or Fig. 9 reference 902). D1 explicitly discloses privacy and anti-tamper countermeasures (eg. user authentication and pocket vault interface see paragraph bridging pages 26 and 27). Furthermore see page 69 lines 3-9 (with reference to Fig. 23) where the display and storage of secure items is under user control (with the ability to prevent POS manually keyed data from being encoded to the Chameleon Card). See also the claims of D1.

The present claims differ from D1 in that the "financial controller is coupled to the display for selectively taking over control of the display". This concept is not disclosed in D1 because the display of D1 is always coupled to the same controller (See Figure 2).

**Inventive step (IS)**

The present claims involve an inventive step in light of the above prior art documents.

**Industrial applicability (IA)**

The claims and description have an industrial application.
